

Re: Attorney Doc. No. HCM-019US
U.S. National Stage of PCT/GB01/01012
International Publication No. WO 01/65112 A1

In the claims:

✓
Please amend claims 4, 8-9, 11, 13-15 as follows:

a1 4. (Amended) Apparatus as claimed in claim 1, in which the chamber is formed from a pair of side walls spaced apart by a top plate.

8. (Amended) Apparatus as claimed in claim 1, in which the baffle tapers towards the inlet port.

a2 9. (Amended) Apparatus as claimed in claim 1, in which the chamber includes a pair of tapering side plates adjacent each side wall to compress the air entering in successive wave troughs. *no side wall in claim 1*

a3 11. (Amended) Apparatus as claimed in claim 1, in which an internal ramp is provided between the inlet port and the manifold.

13. (Amended) Apparatus as claimed in claim 1, in which the air outlet port leads off the manifold adjacent the baffle.

a4 14. (Amended) Apparatus as claimed in claim 1, in which a wave water outlet is provided in the chamber adjacent the baffle.

15. (Amended) Apparatus as claimed in claim 1, in which means are provided to adjust the buoyancy of the chamber to adjust its height in the water to suit different wave conditions.
